

AFNOR USA

Representing AFNOR Certification in the Americas

March 2, 2011

Southwest Research Institute
Office of Automotive Engineering
Attn: Mr. Mike Van Hecke
6220 Culebra Road
San Antonio, TX 78238

To Whom It May Concern,

This letter will attest that the following organization has been an ISO 9001 certification client of ours since 1998.

We have scheduled our recertification audit for April 18th through 20th 2011. There will be two auditors for the three days so a total of six audit days will be performed.

The scope of certification is:"

'The Design, Development, Testing and Evaluation of a Variety of Engine and Vehicle Hardware and Software Products and Technologies, and the Research, Development, Commercial Testing of Exhaust Emissions, Automotive Fuels, Fluids, Lubricants, Engineering Consulting, and Analytical Testing of Petroleum Products.'

Based upon the last 12 years of continued surveillances we do not anticipate any major deficiencies to be found.

Please do not hesitate to call me if any further information is required.

Very truly yours,

Tom Haney
